CHEN ALON

Israel | 052-602-0358 | chenalon259@gmail.com | GitHub | LinkedIn

I'm a Software engineer graduate looking for my first challenge, with a fast and self-learning ability, very committed, and have great social skills.
Looking for a full-time job in Gush Dan.

Education

Software Engineering B.Sc. degree, Azrieli College of Engineering (JCE)   2016-2020

Projects

Hitchhiker – Android application developed with **React-Native** for final project
- An application for finding travel partners in Israel and abroad. The application matches travelers based on **a count matching points algorithm** according to the traveler's requirements.
- Using Firebase as the application server-side – users' authentication, database and storage.
- End to end development process – sketches, design and implementation.

Susan's House – IOS and Android application developed with React-Native for **a real customer** - Susan's House organization
- An application for managing employees' presence control enforced by **location-based authentication** using **Google Maps API**.
- Project manager and communicator with the client – understand client requirement, roadmap planning and tasks division between the group members.

Tic-Tac-Toe game – Development of a Tic-Tac-Toe game with **ReactJS**
The game can be played in a production environment on **Heroku platform –** play the game.

Skills

- **Programming and tools:** JavaScript (ES6+), Java, C/C++, SQL, CSS3, HTML5, GitHub
- **Frameworks and libraries:** ReactJS, React-Native
- **OS:** Windows, Unix-Linux
- **Database:** Firebase
